

RESOLUTIONS

ON THE DEATH OF JOHN B. SMITH.

John Bernard Smith, D. Sc. Professor of Entomology Rutgers College, Entomologist N. J. Agricultural Experiment Station, Fellow and former President of the Entomological Society of America, died at his home in New Brunswick, New Jersey, on March 12, 1912.

As an ardent collector, systematist, and morphologist; Editor of *Entomologica Americana*; Assistant Curator of Insects in the National Museum; Professor of Entomology, and Entomologist of the Agricultural Experiment Station of New Jersey, Dr. Smith's contributions to American Entomology have been of such extended and valuable character that his name has been and will remain a familiar one to workers in Entomology.

He was a genial friend and companion and remembrance of his personal traits will be treasured as among the lasting possessions of memory among his associates.

As a devoted member and officer in this society he labored faithfully in promoting its welfare and we now resolve that this tribute to his character be printed in the *Annals of the Society* as the public expression of our admiration for the man and our sense of loss in his death.
